Colin Suvak is responsible for multi-asset strategy research and development, including signal design, portfolio construction, implementation, and risk management. He also supports the multi-asset product suite and research library and contributes to Research Affiliates publications.

Prior to joining Research Affiliates, Colin was a Portfolio Manager at LongTail Alpha, where he focused on quantitative research for the firm's systematic global macro, trend following, and explicit optionality strategies, as well as identifying discretionary trade opportunities for the former. Previously, he was a Senior Analyst at Investure, where he was responsible for strategic and tactical asset allocation, as well as manager selection for systematic and diversifying strategies.

Colin received his Master of Finance from the Massachusetts Institute of Technology's Sloan School of Management, and his BS in Finance and Economics from the University of Virginia's McIntire School of Commerce. He holds the Chartered Financial Analyst® designation and is a member of the CFA Institute.
